

Rechne bis zur 10 - dann weiter!

$$38 + \begin{array}{c} 7 \\ \diagup \quad \diagdown \end{array} = \square$$

$$38 + \boxed{2} + \boxed{5} = \square$$

$$27 + \begin{array}{c} 4 \\ \diagup \quad \diagdown \end{array} = \square$$

$$27 + \boxed{3} + \boxed{1} = \square$$

$$68 + \begin{array}{c} 5 \\ \diagup \quad \diagdown \end{array} = \square$$

$$68 + \boxed{2} + \boxed{3} = \square$$

$$89 + \begin{array}{c} 8 \\ \diagup \quad \diagdown \end{array} = \square$$

$$89 + \boxed{1} + \boxed{7} = \square$$

$$54 - \begin{array}{c} 6 \\ \diagup \quad \diagdown \end{array} = \square$$

$$54 - \boxed{4} - \boxed{2} = \square$$

$$62 - \begin{array}{c} 7 \\ \diagup \quad \diagdown \end{array} = \square$$

$$62 - \boxed{2} - \boxed{5} = \square$$

$$36 - \begin{array}{c} 8 \\ \diagup \quad \diagdown \end{array} = \square$$

$$36 - \boxed{6} - \boxed{2} = \square$$

$$91 - \begin{array}{c} 4 \\ \diagup \quad \diagdown \end{array} = \square$$

$$91 - \boxed{1} - \boxed{3} = \square$$
